ABOUT CCA

Founded in 1992 by nine rural and regional wireless carriers as a carrier-centric organization, CCA has grown to become the nation’s leading association for competitive wireless providers serving all areas of the United States.

Our members range from small, rural carriers serving fewer than 5,000 customers, to regional and nationwide providers serving millions of customers.

WHY ATTEND MCS 2020?

CCA’s Mobile Carriers Show (MCS 2020) provides the ideal meeting place for competitive carriers and wireless stakeholders to come together under one roof for networking, educational, and business opportunities. MCS brings together more C-Level executives, from more carrier organizations, than any other business event in the United States. You will have to opportunity to learn firsthand how smart strategies and technology innovations in the telecom industry present new business opportunities for your organization and how you can help your business adapt to this increasingly mobile world.

- You’ll learn firsthand how 5G will change the way businesses communicate. With 5G promising to be one of the most transformative technologies of the decade, it’s going to have a massive impact on communication strategies and your business’ bottom line. At MCS 2020, you’ll explore just what 5G is going to mean for your organization and how you can be on the forefront of this exciting new technology.

- At the conference, you have the opportunity to meet directly with executives from over 100 organizations. CCA is a more intimate show with around 1,000 attendees, so there’s a very good opportunity to make connections, establish personalized meetings, and network.

- Many of the carriers come to the show looking for solutions to solve their business challenges. With CCA members spending more than $15 billion per year on products and services, this is the perfect place to showcase your product/service to an audience of decision makers.
Our trade show events bring together more carriers than any other conference and are the best venue for meeting and networking with the decision makers of carrier companies. Carrier CEOs and high-level executives walk the exhibit hall, meet with vendors, and attend the numerous educational sessions.

- **60+ Speakers**
